

The bluebird song

Just like a bluebird
Flying high, out of sight
In this great journey of no return

Just like a silence
That echoes your absence
Even if the heartbreak is immense
We still really feel your presence

**We will remember
Those who've gone beyond
Their lives are forever
Deeply engraved in our hearts**

Just like a new start
On a road we all drive
Knowing it's a one way ticket ride

Just like the passing years
That go on without mercy
And where everything begins and ends
One day we will go too my friends

**We will remember
Those who've gone beyond
Their lives are forever
Deeply engraved in our hearts**

Just like a prayer
That will be with us forever
Darling, until we all meet again
We shall always continue
To love you
