

In the music

Whether it's classical
Or whether rock'n roll
Its style doesn't matter
It always hits the soul

Whether made in studio
Or live during a show
Some good melodic lines
Make one feel so fine

Whether it's very slow
Or really uptempo
It triggers emotions
And full of passion

*It can heal my heart
Driving away my pain and fear
It can make me start
Feeling good and at peace*

**There is truly magic
In the music
I simply forget everything
As soon as I sing**

**There is something poetic
In the music
Its journey is far beyond words
It's out of this world**

Whether played in a bar
Or in a concert hall
Its spirit stays the same
Beyond the type of stage

Whether a cappella
Or by an orchestra
Its voice travels through
The heart of me and you

Whether it's a new song
Or an old melody
It's always been around
And will forever be

*It can heal my heart
Driving away my pain and fear
It can make me start
Feeling good and at peace*

**There is truly magic
In the music
I simply forget everything
As soon as I sing**

**There is something romantic
In the music
And it gives me such a feeling
It keeps me dreaming**

**I admit it, I'm an addict
To the music
And I could not live without it
For it makes my heart beat**

(finale)
**My heart is
In the music**
